

Press information.

What is Digital Schoolhouse?

Ukie's Digital Schoolhouse powered by PlayStation, sponsored by SEGA and Warwickshire County Council, uses play-based learning to engage the next generation of pupils and teachers with the new Computing curriculum.

Workshops are hosted by Digital Schoolhouses (usually secondary schools) and taught by their appointed Digital Schoolhouse (DSH) Lead teacher.

About Digital Schoolhouse

Ukie's Digital Schoolhouse is a not-for-profit programme, that is powered by PlayStation® and sponsored by SEGA and Warwickshire County Council. It uses play-based learning to engage the next generation of pupils and teachers with the new Computing curriculum.

Each Digital Schoolhouse is based in a school, college or university environment, and aims to work with a growing network of local primary and secondary teachers to deliver creative and cross-curricular computing lessons using play-based learning. Through this, it supports the new Computing programme of study for the national curriculum in a way that leaves pupils and teachers feeling inspired about, and engaged with, computing and the wider creative digital industries.

The workshops put theory into practice and help teachers embed it with ongoing personalised support and continuing professional development (CPD). The programme has been accurately described as a 'bridge between education and industry' – and a good one at that.
